Professional Summary

Experienced Full Stack .NET Developer with 10+ years of expertise developing and maintaining cloud-based applications using .NET Framework, .NET Core, MVC, C#, VB.NET, SQL, and JavaScript. Proven track record in creating optimized code that is clean, correct, and scalable. Skilled in creating responsive and user-friendly interfaces, integrating with third-party APIs, and building secure, well-documented RESTful APIs for external consumption. Strong knowledge of SQL database design and management.

Professional Experience

Senior .NET Full Stack Developer

Applications International Corporation, San Diego, CA
2015 – Present

- Architected and deployed new elaborate enterprise-level SaaS software features in collaboration with a cross-departmental team, enhancing functionality while maintaining legacy systems.
- Provided production support and modernization for legacy applications, resolving critical incidents, improving system stability and maintainability, and performing staging and production releases as part of the release management team.
- Delivered end-to-end solutions in a Scrum/Agile development lifecycle, utilizing full-stack expertise to deliver high-quality, scalable applications.
- Designed and implemented a document library with structured storage, version control, and secure publishing to streamline document management.
- Led development of a public-facing web portal for searchable SDS chemical data, improving accessibility and user experience.
- Built and automated scalable data ingestion ETL pipelines using MSMQ and SSIS to process high-volume client data efficiently.
- Developed customizable, client-facing reports in multiple formats (PDF, XLS, XLSX, and others) to analyze trends and provide access to critical safety information.
- Optimized SQL stored procedures and views, enhancing performance and supporting scalable enterprise applications.
- Mentored and supported new hires and other developers, providing guidance on best practices, code quality, and project onboarding.

Cashier

Sprouts Farmers Market, El Cajon, CA
2007-2015

- Developed strong interpersonal skills, effectively assisting customers, understanding their needs, and communicating clearly with team members to ensure smooth operations.

Skills

Backend
